EDUCATION

Rochester Institute of Technology *United Arab Emirates, Dubai*

2022 - 2026

Bachelor of Science, Computing Security

CGPA: 3.30/4.00 *Dean's List*

Relevant courses - Introduction to Cryptography, Risk management, Intro to Database, Network Services, Reverse Engineering Fundamentals, System Administration I, Programming for Information Security, Software Development and Problem Solving II, Introduction to Routing and Switching.

PROFESSIONAL EXPERIENCE

Network Security Analyst Intern

July 2023 – August 2023

ALEC

- Configured and managed firewalls to enhance network security
- Monitored live systems, identified and evaluated potential threats and vulnerabilities
- Monitored network traffic and investigated security alerts to detect potential threats
- Collaborated on threat assessments and identified vulnerabilities in live systems
- Supported the investigation and resolution of security incidents, including analyzing logs.

PROJECTS

EDR Home Lab *March 2025*

Simulation using Sliver, Lima Charlie, VMs, C&C, EDR.

Password Manager App *December 2024*

Android Development, Database, Encryption, User Authentication, Java, Firebase, NIST SSDF.

Risk Assessment Report: NIST SP 800-30r1 *November 2024*

Risk Assessment, NIST SP 800-30r1, Vulnerability Analysis, Risk Management, Reporting.

Hybrid Encryption Analysis *September 2024*

Cryptography, Hybrid Encryption, Frequency Analysis, Cipher Design, Security Analysis, C.

Reverse Engineering Dr.Evil *May 2024*

Reverse Engineering, Debugging, Assembly Language, Disassembly Tools, Binary Exploitation.
